Introduction of CDOOR company

Behin Pishbord Datar company, CDOOR as a commercial brand, pioneer in Iran's Polywood industry, after 3 years' research and review, get started since 2013 and ,became known as the first and largest mass producers of Polywood doors, frames and cornices in Iran and neighboring countries. It is worth noting that the products of this company have been too welcomed by contractor companies, mass builders -and residential, hotels, hospital, office, commercial and recreational project consul tants in and outside the country, and have benefited from the services of CDOOR

What is polywood?

Polywood (WPC) stands for Wood Polymer Composites. In fact, it is the composition of wood powder and polymer (PVC). The doors of CDOOR company produce in special molds using the extrusion process.

The unique features of this product are:

Waterproof: polywood is waterproof inherently and is 100% resistant to moisture penetration.

Self-extinguishing: these doors do not ignite because of heat and the wood does not spread the fire.

Antibacterial: it is not possible for germs and bacteria to implant in this product due to the lack of holes and pores in their structures. (they can be washed by common sanitary cleaners).

Impact resistance: the structure of these doors is integrated, its network structure caused high resistance to impact and pressure.

Soundproof: it reduces the environmental sound up to 36 decibels, due to the presence of air in the network structures of the profile of the door.

CHILDISH FEELING
IS MY WORLD...

An aerial, fisheye view of a dense urban landscape at sunset. The sky is a mix of blue, orange, and yellow. A semi-transparent blue vertical bar is on the left side. The city features numerous high-rise buildings, a central green park area, and a church with a red roof. The text is overlaid on the blue bar.

CUSTOMER COMPLAINTS

Every Door Leaf and Frame Leaves our factory with a clear conscience.unforunately, we can make mistakes too (no one is perfect.) This mistake cleverly bypasses all our controls to be discovered by you. , this is neither good for you nor good for us, because quality is important to us.

- Do you want to report a bug?
- Do you have a complaint about your door frame or polywood product?
- We respond as quickly as possible and help you to solve the problem and compensate for the mistake, because we want to get your complete satisfaction with your Purchase and the Cdoor company and make you happy again.
